

Vision Signs Testimonial.

I recently constructed a shopping center, and needed several channel letter signs, some of which had challenging designs, not only with the shape and size, but the font as well.

We put the sign designs out for a competitive bid, and although the bids came back reasonably close, we awarded the bid to Vision Custom Sign Company. I am so pleased with every aspect of the quality and performance of their work; I actually requested the ability to post feedback.

It is getting harder to find a company who delivers what they promise, and stands by their product after they receive payment. I was delivered more than promised, and would venture to say that their craftsmanship is second to none. I have visited their shop, and witnessed the true art of sign making . . . I don't think there is anything these guys can't do.

My recommendations have been few over the 22 years of being in the real estate and development industry, but I'm compelled to give a very high recommendation to Vision Custom Signs, and let everyone who reads this know that they are in good hand with this company.

Respectfully,

Shaun Petracca
